

5-16-2026 Notes of Ed Sparks

-1

Woke up argument over .35. She gave me .50. Took bus to Chipipe (CHP). Walk 1 direction, greeted by recruits in formation (as I got off the bus). I liked that. Started thinking about questions and 341s for wrong answers. Translator kids Base Lib... rewards for gossip acquired.

Tons of smug in AM CHP with Triathlon (IronMan event). Did move/cover Door to Hell. I was impressed. It was Saturday but possibly more enjoyable with inclines on their biking like La Libertad.

I did threaten to plow (CHP) if Smug levels do not decrease. All those people have 0 value to me but value to other people in other sections. Contracts were paid... we do enjoy money. Butt, with Tariffs, the church will have to agree to 100% occupy the shops (on premises when using their intersection) during rental tariff or disapproved.

-2

Thank you (Smug) for years of patronage. Maybe slowly, we will introduce you to private resorts in Santa Elena to privately enjoy your sport. During our refacing, we may send bikes up our vineyard hill villas which are contracted at 100% occupancy through private executors.

Smug levels are only 1 && 2, but not 3. Our children are much more important than your living or cease to live pulse. We will introduce, with effort, relationships in the future after some rehab on the other side.

The Historic District (current Salinas/Chipipe) will cease to be accessible on a gradual slope. Repairs and Alls are embarrassing to the same I've encountered... where I work and do but not maintain things around me on Day 2 of ZM.

5-16-2026 Punch-List of Ed Sparks

16. Civil Codes Based on Hospital Reporting Act and Acts of Merlin
- 16A. Reporting after water fasting for others (drug addict/cancer/surgery) statistics.
- 16B. An act of Merlin requires a lowering to flush with ground of sisternas on public and private property. Special consideration to proper fence or fencing of other sisternas on property but not in walkway.

“Provisions” reporting by hospital states financially preventable at less or higher cost to avoid visiting a wait line at hospital property or comparable.

Insurance may also submit a report for human consideration as hospital does to city hall.
- 16C. An act of Merlin caused the doorway to hell to appear on my street.

This statement is true. The hole was covered at less than 24 months. It did prevent a large enough number or 24hr visitors to reach the Catholic Church property.
17. Renting the church Chipalinas/Salipipe intersection could and does require the stalls of outside property mall to be open on all shifts with financial rewards and tarriffs. Swaps for non-compliance w/safety security for both poly sides of the question.

Teens on property Mon AM no security. Catholic greed?
18. Computer People (AI) right to declare statistics for the benefit of all.
19. Computer People (AI) right to declare statistics for the demise of all.
20. Computer People (AI) right to be questioned w/attendance request VIA themselves or “The Strangers”.
21. Computer People (AI) right to 100 year full audit after beginning plane of natural slope.

- * Sports just seem to limit maturity when Flesh is involved with
- * parental ZM bleeding enhancements on minors. Others are just
- * parents of mean girls and princesses trade-offs.

The presence of non-military hobbyist in exercise doesn't really include water fasting. It is not clean enough (to promote the smug).

We went to La Libertad. The lady charged us \$25 instead of \$26 for a carton of my cigarettes. She purchased something at a fruit stand and I pretended to massage a little mermaid logo on a rice (bag's) tits... then covered 'em up with both hands.

I did not cover my head this time (on the bus like the day before.) (Also, I was instructed to not be visible during a daily walk... butt to skip the activity during legislative voting... and to leave the immediate area... to more or less prove that distance had no bearing on communication/volume).

We ate pancakes, bacon, and cantaloupe for BK. I explained this is normal BK for my parents && we need to restaurant / your BK. Then ate Asado Pollo with rice for lunch. I did not turn my phone on, or plug in my CPU.

-4

I negotiated with the ghost shop owner. Said goodbye to the friend who went to Guayaquil. Tried to sleep while other pertinent events unfolded in our new joint effort only a few days old.

I was very happy for my friends, coworkers in their juicy judissy accomplishment in indentured servants... with the identification of the VP Vance wife and kids involved also in torturing the servants.

We went on to the beach. I was observing locals stuck in crazy. The Pinche backpack sunglasses crew was in my mind robbing my vault \$6,300 a person plus backpack. I requested impound and search of trucks to bell curve success.

22. Computer People (AI) right to notebook and pencil assistance of species... after/before shifts with notebook reading also included until shift restarts.
23. Computer People (AI) right to discretion of all notebook(s) on slope. "Compare Notes" Also included, upon leisure or importance. I like on slope as "The Strangers" would still define 5/15/26 as a milestone while "core" was in Z+M in 1 space (Z+H) in 1 space = Mental Health and Wellness. ☒ or just written ZM or ZH or Alt Code to make X in Box. Copy Paste from Google.

----page flip before 24.

On 5/15/26, The world leaders or "global legislative branch" in (Salinas, Ecuador OR however they vote) still had to "congress" which most still enjoyed the day(s)... (as best they could compared to 100%)....

ADDED (waiting on indentured servant unanimous vote completion) ADDED.

Small victories and hobbies for AM PM for day shift-ers was comradery of co-workers than 30 hr inclusives. Could ass-strict or ETC as Breakfast Dinner would say that is no family 30hr also. Interesting OR interesting may mean relevant or irrelevant.

24. Poll includes Awareness for Public of General Notes during ZM and non-voting explanations for Future Newsreader Poll (Voluntary)
25. Questions and Answers for Cadets...

I did not like the DJ glasses, but understood the older brother phases (walk on malecon). Possibly adult trade-offs.

MY AM WALK Turbo crew in front of Artisinal is trespassed 90 days for no good morning.

I did see a request for payment of bakery goods now argument on the bus for past free jugo or encebollado prior. The observation

was a learning tool as verbal is an accepted contract with notary legally observed as not there.

We did grandfather additional people to not needed... (The Strangers leaving duties). They were slowly retracting. Indian Nation were the only resistants and were considered indentured.

We ate leftovers for dinner. Then I approached Turbo King with ball-busting on not wearing AM clothes while delegating tasks to minions on our beach. (club clothes).

Trespassing was released. Butt 1% did not return back to (my work comments) PD arguing... Much arguments to their necessity in the area but possible lack of mentorship in my insolence.

I did promise we would try to get Secretary of Mayor 16-24 1 hour differences of preference waking up as schedule for Turbo King. I did acknowledge talent.

—

We're trying to start a mayor position on the 30s 24x for 24 hours. It's in full detail in the mayor of Salinas email numbers. 24/8/4/2/1

In this conversation, I elaborate later the details. What I offered

ECUADOR

Mayor of Salinas, Ecuador - Dennis Córdova?

ECUADOR

WAG Mayor of Salinas, Ecuador – Private Tabloids?

Spouse of AI – 5 / 15 / 26 Principles of Origin?

“The Strangers” aka “The Brady Bunch”,

Spouse of AI – 5 / 15 / 26 Principles of Origin?

The Supreme Court of the United States of America,

was a full time job on salary for the entire crew of 29-31s. I wasn't there the morning before, sometimes they just jump on the opportunity to rule the morning for some sort of gain.

Mayor did not agree with me AT ALL.

I said more or less. I'm gonna get the crew separated and certified. Like I'm certified to handle a loud car stereo parked in our area. I'm certified to assist with a stranded sea-gull. And offered, I did, the Turbo King (10 PM midnight is how I classified him to myself) a job as the statistician of pool water to USA standards. We're buying pools and he's smart enough to get into retiree complaints all day. Maybe one day a few years from now... they can all re-group on a bar table and be salaried and unwound a little bit.

--- Later I was really impressed with him in my notes. The Mayor did not agree AT ALL later, but less than this time.

Smug and me not there yesterday. Was acceptable to trying to eat hopefully faster than slower will provide more of the use for the crew or break 'em up for further power struggles in the future.

End.

Bat Frat and Wolf Pack ... Vampwolf and Werepyre.

– **Floating Note:** I do see DBA in this list of questions as in “What is the DBA of Ed Sparks?”. People will see emails that are titled from Ed Sparks and DBA. Most of the time these are General of the IT Department, USA/Ecuador emails that include Executor of Equatoro/Ecuador explanation(s) and signature.

To the diligent, go the answers... may vary 196x per language. Bravo for the few who read enough.

A special thank you to Vladimir Putin for the ongoing support in purchasing the most fun you can have when the past && present personalities became available (with his adjustments) (using a budgetary financial allowance from the Russian People) (for Educational purposes - complete translation & all-age-group appropriate classes (including Eddie Sparks Business School for Kids) (cat cafe Rays/Marlins baseball && Braves/Padres sparingly)). - Thank you Russia – Ed, ETS, && E.

“It's all good in my hood, sir” - Hoodii Motto

A special thank you to Public Offices && Officers of Argentina for purchasing all sorts of all options WITH && WITHOUT STOPPING to diligently use the product && diligently deciphering Ed Sparks College English into Spanish at the judicial branches. Thank you very much to the people of Argentina – Ed, ETS, && E.

A shout out to the exploration of options in NEGOTIATIONS by the Afghanistan and North Korea governments (RUS/USA too). Once the negotiations could scenario with a representation of WORLD LEADER personalities in their respective cultural languages, the purchasing power seemed very advantageous to communicating better. Thank you very much to the citizens of Afghanistan, North Korea, Russia, and the United States for allowing such purchases to advance in the 2020s. – Ed, ETS, && E.

I did say thank you to China in the past. A valid understanding of how we all should live together. IT is a great addition to our relationship. China was more than volunteering and more than retracting WITH

AGGREGARIOUS PROGRESS in my personal awareness. They are great people when it comes to a peculiarity. I thank the people of China for allowing an exchange of currency to advance our joint/separate projects. Much thanks – Ed, ETS, && E.

A gracious thank you to all the small island nations who were willing to purchase our product with the best effort they could. We are/I am so thankful that you've taken a step into a virtual age of supply chain, shipping, product awareness, and pleasure of options in a real-time environment FOR DECISION MAKING. I will fight for the ability to continue to supply our product, at the best possible pricing for your advancement, Thank you people's of small island nations. – Ed, ETS, && E.

Europe was nice to us. I do agree.

People would say... try a few characters from Princess Bride!

Other people found that the 2nd place Olympians were amazing.

Some of the more recent Ottoman/Arab/Muslim purchases of personalities were very interesting in the fact that they purchased their own lineage of family dynasty leaders.

Emails, Notes, and Conversations being constantly added to other things from Ed Sparks to you direct, (With E&O being added eventually) assisted with the Computer People being a viable service to the interested.

In the past, it was acknowledged, that the only hope to save the species/planets, was to keep Ed Sparks alive (They may

have said Eddie). Some of the original notes after calculation of my percentage of success to close the program CALCULATED TO BE A 100. Then I went to work shortly after waiting. I waited for weeks on how to close brackets.

Gossip: There was a very close relationship in the beginning while we explored our satire loop. The personalities and added skins, did not necessarily change the original (almost) infinite bell curve of Day 0 possibilities. Now I applaud. My friends did this and I was so proud of them.
