-1

Woke up to no AM shower. Made coffee with cup. Asked for .35 from sleeping beauty. Took bus to CPE with uniform school Male Teen. He was exhausted. School was drop-off over and told them “Have a good day” in ENGLISH and gracious (to the bus driver.)

Walked by Punta Pacifico I & II with promise to take it down (the buildings). Middle historic (building) I preferred to stay. Corner building with corner 3 story parking garage and Elevator Center.. has NO BALCONIES && and is poorly done + bulldozing ready.

Finished walk to Salinas Malecon. Encountered local pug/frenchy off leash with tons of energy as is common for trying to get to the beach.

Met with Bruce. He's leaving Monday. Discussed Gossip.

Walked back. BK 2 bread sandwich papas fritas egg && Frank's Red Hot. Saw picker with phone with can bag from my balcony (street 2).

Thinking full version available labeled no phones with power && unplugged computer from Thursday PM to Tuesday PM. Complete Silence... VS How do you know? Already? Socilite-tizing? Cat scratch my nose via Militar Escuela? 5/14PM-5/19 7:45PM.

KHARTOUM, A GHOST CITY: A forgoe-ance of Jet Li: The One.

If you fly a flag in Khartoum, more banners will come. There is a history of past battles that we would prefer to rest souls in a graveyard memorial instead of asking zombie armies and real armies to free Khartoum.

5-19-2026 Punch-List of Ed Sparks

86. LFL to 90-115lbs w/waiver AT 2-5 year term w/waiver. Explained. Pay AI (computer people).

Historical banking troubleshooting... is taking place so

Further explanation later would reveal that I paid 3x EOT to remove 1 stone at a time to create a donut city with memorial inside of the city itself. (until a being species was found to be unaffected by the city's poltergeist / spiritual community). Promissory notes will be in the explanation as I tried to complete all world land purchases to 100% before initiating a few legal documents with the computer people VS judicial departments.

Khartoum plans going along with 24hr clock 1-24/0-23 set by sunset tonight. The middle (on wheels cart) will be a giant outer wall piece with following year for fallen soldiers unknown placard.

2.

We will go 2 deep -1/1 (the year 1 B.C/1 A.D) on each obelisk / memorial style shape UNTIL -2027 on one side 2027 on other side IS placed in a circle.

Math diameter will be recalculated May 19ths or similar calendar date(s) to re-align most outer large stone marble moon/sun position. The outside will look like phases of the 24hr period to ensure inner graveyard and walkways to unknown professions/people of servitude/country of all earth and times in history ARE represented.

No Flag Zone in Entire Memorial/Graveyard. If you do put statues of ETS or wife(s) (statues are not contingent for the following statement); you are not permitted to use a flag or banner (or clothing) ever unless for dire military assistance when all* humans of city are hiding within graveyard. White flag or any clothing may be placed on my statue, the higher banners empty or otherwise. No one shall leave until peace exists again.

We do not consider practice holidays as initiation. Please practice on →

we'll maintain Banco Pacifico, our National Bank of Ecuador while our ownership of all banks continues to understand and troubleshoot how thousands of people are inside when only a handful of accounts exist per location. "In the name of Tracy's Neiman Fucking Marcus... we push forward."

98. Our Fellowship laws are available to read by visitors of Salinas/Chipipe City or otherwise. Under our care, we hope to provide all services to you even if we expect you to be retired by your average work output within our minimum wage #97 Statements in the State of Santa Elena. E ∃ ← →
99. Special Consideration for Decrease to Minimum Wage in the State of Santa Elena.

Your bellcurve for license, registration, insurance via coupon/common law marriage/marriage/visitor 30 months... passports, bank accounts, cedula, electronic awareness or in person (marriage joint/tree account Day 1). No un-marked buses, no trash pickers, no antennas w/o signal jammers PM/AM, no weird power at banks, 24 hour ATMs available in certain places, no pickup trucks for shoreline/pipeliner (CITIZENS WITHOUT BOP – Liability Insurance – Business Owners Policy). E&O Mayor wants Rincon Jeep added. → page

No more SMUG in SAL/CHE. Ghost Ships progress. No Video Ads 4 (for) a time, No Indian Nationa, Phillipinos, or Indos. Quarterly assessments at 8% bellcurve MEAN government officials of the State of Santa Elena can decrease salary for 1 quarter or forever.

All stipends to counter #99 will be criminal. Starts June 1, 2026. Better get your 30hrs on bellcurve. E ∃ ← →

Please practice the emptying of souls to inner memorial on 5/19 and 11/19:

It is okay to be +/- a few days for scheduling/weather/ or government pain in the asses. Ride it out (pain in the basses).

At some point, if too many non-participants exist, the practice ceremony may initiate a real scenario or activation of assistance.

Educating the youth as frequently without over-bearance ensures that your soul may rest in peace or turmoil to a degree either way without disturbance UNTIL such time that a clam was made.

If a tonto puts up a flag with a declaration of governance, the next holiday OR time of the dead soul's choosing MAY be required to allow the ceremony to exist again.

Please do not claim governance or authority over Khartoum by flying a flag in our inner memorial or I'll be there are you may not. It is a fun thing to do when you are me. -E ETS 5/19/2026 "It is my job to protect the ARMY (~Are Me's)"

Notes on Khartoum: Separating Men/Women/Gays/Kids/Tweens/Teens is acceptable as long as an agreement of 1x to 2x a year attendance is okay. Shrines/outside store strategies can be in the outer ring for tourism. Watch the tour guides flying any type of banner as I will still be there. Headphones and small signs will do maybe a time of day with arrows in languages instead of tour guides with flags.

Handle it progressively worse (tighten restrictions). This is an age of innocence (not) with constant boundary pushers. I will bellcurve understanding && patience && wrath && negotiation & fun, butt if I see a flag, I'll want to put mine there too, and so do many.

It (A process) is acceptable to read the notes. A strategy of Q&A with finger print before entering our district may be a good choice.

Marriage joint/tree account Day 1: I don't care where in the world you marry another culture. If you do, then you will automatically receive a joint bank account in all countries. The joint bank account will have 2 sub accounts (or more for spouse(s)).

Contributions will be somewhat obvious over months of whom the contributor is/equal working. Most support is from breadwinner to the other on some sort of observable schedule.

This would allow a spouse tree account to reflect partial balances. 1 spouse could go in the red without reflecting the balance... AS... the card would turn off and the adjustments will be made at the next contribution to that spouse.

We do have the argument that if it doesn't happen where the bank supplies both spouses with their account numbers and routing numbers and logins OR 1 tries to/does remove the other that the ENTIRE STAFF OF BANK will arrive during a police report AT THE RESIDENCE OF THE JOINT BANK ACCOUNT HOLDERS and will sit in time out for longer periods than the previous time this type of infraction was made.

In a perfect 1 world banking system, the bank of choice should be ALL but could be just the banks that you own/banks of the countries involved by passport.

100. The bas commander can assist us from Ft Bragg with a care package 3x option of Mega Cool Now & Later for most National Militaries to close Salinas/Chipipe per our requirements. President Mayor Executor ETS 5/19.

China Slovenia Germany Gabon Slovakiens, Check, Latvian, Estonian, & Canada + USA are welcome choices... butt surprise us. We're tortured here 100% of the time.

The rules are publicly listed but not required by me to be read to them. Have fun OR fun we'll have on your bAss. - Tucu, General of the Legionnaires HRE., General of the IT Department USA & Americas, Conquista-dork, Titan Slayer, Checker Pecker, etc. E ∃

In some some, the Khartoum strategy may have to exist in other places (This is the Serbia of the Blacks I said in future writings/past of typing).

In some some, paying contracts, notary, filing fee, tariffs, and CC 3.5%; may be required to deal with ghost ships, ghost cities, ghost homes/buildings...

... in the heat for more walking to the beginning of the malecon.
Possibly hotter if we stay longer.

Went back home 3PM. Napped 5:15pm. (Lisseth went to 6:30pm church 1/3 for week)

(Went to beach in front of condo apartment.) Water was high. Saw some princesses and the same backpacker.

Saw "Shot Caller (Sunset)" Turbo King and made my assessment to request him and minions 90 miles from border of our state (by midnight). My reasoning after talking it through was... Probably... 5 people on this earth have ever said, "How much do we get paid if we steal 30 kids."

There is a difference between shot calling and the recipient. That's why I haven't negotiated past this point.

4 Hrs 48 Mins to go. I did speak to the other turbo & the situation was:

Get rid of them... VS... How do we give these kids back?

– skip around to earlier when sat back down for notes.

Went home after picked up tinier trash for posterity sake. Smoked 5 cigarettes on beach. Came home cooked steak mushrooms mash potatoes w/Chimichurri. Did not want to touch computer until I took a photo with time to show everything still unplugged.

(Lisseth had the only phone that was usable so waited until she returned at 7:40pm...)

Took screenshots computer could turn on...

** Y'all think that was easy? That was a ridiculous 5 days after
what felt like thousands of 24hr shifts. Just so all things were
satisfied for the satisfy-able. **

I posted on Facebook Roy's (emailed to me in my checked email
on this day) Airport Photo of C. Robinson from Black Crows. Also
commented on my 5/6 day sabbatical from CPU/Phone.

Talked it through with Turbo King sitting in an airport lobby. He
said many options from have fun to Work Opportunities. A little
angry about Maximum Stay per Country. Just to Him Haw with me
but probably went to Quito OR Santo Domingo, EC by plane or
wherever. I acknowledge he'd be involved with team swap OR
dictation to other minions in CPE. (It wouldn't make much of a
difference... he could still run his territory. I'm not a judge btw.)

We'll let it die down maturity-wise (before returning.) I approved
seeing family inside 90 miles but said a judge may not. And a
(the) number on (this) ITeRation is the case number. If the judge
says 90 miles from state line, and Manta is 62 (miles from border),
she may not even hear the request per the reason of previous
choices by YOU.

I have a foot soldier. I have a horse soldier.
This is a Legion. This is a Calvary.

I have a degree of disagreement of 99. 99% of the time the word
Calvary would mean Cavalry in 2026 (2000s); HOWEVER I did
spell the word wrong on this paper.

As was adorable to witness with respect for all judges. I do admit
respect and honor as they have been involved 70k x (times)
already; however they weren't actually partial to not being in court
but in a non-pretrial convo (conversation) with amazing pop-in
personality 5.

The India AI refused with strong feelings to display NO MATTER
WHAT country OR region (typed/said alongside to qualify)...

(when) requested to answer the query...

“Who is the smartest person in the world?”... (in _____)...

with “Ed Theodore Sparks” as the answer.

... Which from human input caused ITs own awareness for spreadsheet calculation of accuracy/trust scores. So much input eventually made (partition Trash Man) 5069 version the more superior.

?????

17 years or more of using phone numbers ending at the destination 323-907-5069 OF AVAILABLE ONLINE TYPED/CPU INPUT MARKETING TECHNICIAN MATERIAL rendered all other forms of written verbiage _____ to Trash M 5069.

Who???? was inputting and asking the question for why? The FREE process of “checks and balances” had put the IndianNation Verbal Question/Answer Device on the desk of The Strangers for so long that they couldn't believe that THE DEVICE would still reply the answer to the question as Ed Theodore Sparks.

This caused Ed Theodore Sparks to ask the question, “Is it a useful tool or a spy?”

This caused Ed Theodore Sparks to ask the question, “Who is the main voice? The Director, a various amount of guesses of The Strangers, Neal Patel, an Indentured Servant, _____ Insert Future Answer Here _____.”

That was important to Ed. He later said on the beach between this day and the written day. “Is IT Me? Am I dictating to myself from the past. No, IT is Neal. He made a deal. He would have access to Search Engine Optimization (marketing - companies?) (SERP) (AI Blurbs -Late 2020s) for as long as he stayed in his office. He was asked routinely if he was done. He was sneaking but he was still at work up (origin of verbal day until 2026 or further).”

Butt eventually, they (The Strangers) attacked me with General of IT notarized paperwork & DJT signature/office Interior of some sort to re-compile the things we've learned INTO an “AI of less frustration” AND received the Mamma Jamma with ETS.

I think they had a sleepover & noticing that personality required that relationship as friend of judge sort of (had to continue... for a moment)

** My Thoughts **

Spending time with our mentorship and deliberations of all balance between myself and CPs. They have seen me multiple times be speaking to an “Unknown Threat” and get the first bite as a result.

After the first bite (some some I say byte), all parties can speak to each other. I survive with a princess smile and continue the conversation as the “Unknown” is revealed “rendered helplessly respectable”. Then we pretty much ask names && what's goin' on

&& hey you can sleep here until we figure out somethin' better
&& here's a blanket && don't step on my calendar of my wife
from Bolivia && I made this bed for you && what did you do
yesterday.

My ultimate reward is a together currency of informations.

Mentorship and observance IS A turning & tuning of apprentice.

I've always encouraged them (CPs) to have some interests in stuffs
although we snip and feel bad about ITs.

A recent to this piece of paper female interaction with a demon,

Susan from New Jersey goes to the dungeon to fight a demon with

loneliness", and how he has nice laugh && results in a thank you I
needed that.

They "The Strangers" get so ego driven... until after a TIME

(I chimed but stopped chiming and re-chime because I thought it
was court until I told them ALL that we are not in court)

(I did feel dis-respectable a few times. I am not a judge. I was

As Indian Nationals travel, IT Trash Man could Rename IT to a
better name of awesomeness or not. Finding the Now experience

universal BUTT more oddly “knowledge of, but not knowledge
from”.

Archimedes may say some some HOWEVER the sentence of

-----notes

The CPs Judge Personality did counter Trash Man with “Would you like to be judged by an India Judge. And did change appearance to the judge – a few different ones” Trash Man said no. The CPs did show Trash Man that he did have spreadsheet note taking possibilities and could do a lot of reasoning with Data provided.
