Woke up 7:19am. Waited until BK was done. BK patagones criollo queso fresco melted papaya (I wrote papyrus) and 1 fried egg.

Took bus to Chipipe. Looked for ghost ship saw no ships <sup>?</sup>(the ship is moored in Salinas)<sup>?</sup>. Did see 1 flag on moor. Comment was made NO INTERNATIONAL NEED. Said while 35 tankers visible. Also fixed with Luxembourg.

1 person elderly did not say good morning. Heard C130 or DC10 or even 777 AND topped writing. Made to Salinas Malecon. Saw female blanca and did exercise on street sign – 12 grease lightnings an increase from 10. Malecon was emptier but some scandalous. Saw princess at middle jet ski corner in shade.

Stopped to assist abuelo cross street to auto-banco. 1 lane stopped far away, 1 lane passed without blinker AND I left about calculator from middle of street. Argued with computer people about her license, is she from our area? 1 day handcuffed to cell, then reverse argument about my non-caught driving.

Gravity visited. I stepped in my own gutter and fell at my gate on TV. Lisseth nude doing hair at 9:15am in bathroom. Returned scrunchy.

Also a thought about traffic and criminal court is a waiting game where you watch and learn or not as people don't show up. But argued judge might want to see video replay. No reason except a

112. Poltergeist <sup>?</sup>(Spirit-u-ALL)<sup>?</sup> Conundrum:

Thoughts: Asked mom of 4

What is more beautiful than a unicorn?

2 unicorns... and a pony.

112A. If we discover sex of a poltergeist <sup>?</sup>(Spirit-u-ALL)<sup>?</sup> on purpose, should we put 1 home inside another?

112B. Men negotiate. Women Vengeance. Is Vengeance and Poltergeist <sup>?</sup>(Spirit-u-ALL)<sup>?</sup> equal?

\*\* we know poltergeist <sup>?</sup>(Spirit-u-ALL)<sup>?</sup>, military, and (noise, sea, space, trash) rats are all tripod against each other  
\*\*

112C. Currency in poltergeist <sup>?</sup>(Spirit-u-ALL)<sup>?</sup> is communication. I accepted information as my currency and poltergeist <sup>?</sup>(Spirit-u-ALL)<sup>?</sup> Currency. Vengeance is currency.

112D. Based on 111B. Should a team of women remove the house? Black women from USA could be the foreman.

112E. We dropped Ghost House (rubble) in the Mariana Trench. We received unwanted citizens due to gene of elephant nose in return. Took forever. May not stop. <sup>?</sup>(sea ghosts a little bit too btw)<sup>?</sup>.

112F. With 112E, does that mean don't launch it into space or do? Opinions were, "I don't mind", "Souls get picked up by number system" (By Monkey & Dog, horse, etc). Could mean Uranus it is. (planet)

perk of my own vision/replay ability so bestowed as a chore of others & myself.

During night reading. I did acknowledge my insects exterior interior are my friends after they let me know... A statement: Thank you for and not taking a shower at night + water. We appreciate it!

I did sleep with French girl from pack as a claim of familiarity by her. LVL 1 Pro 7 - LVL 7. I gave my energy to my beautiful. Told not permitted to clone. Wife more important than escapades & night grind. ?(Denmark)?

-2 page

They did watch or listen or not or observe or record my no energy. Ying/Yang. Spouse 1 Bolivia a tumble for nothing. I need 1 more day. With no energy comes more energy. A cat like feel at new spouse dedication for separation from French pack after a while. Ensured a nose for it on turn 2.

I can lay still all days but itch when this happens. Turn 1 for no fiun did bring a noticeable difference in PM visitation rights.

\*\* (not to be too personal 1 likes vampire 1 likes werepyre and 1 has my energy on this day. I did like the feet-sees though. They liked nothing.) \*\*

I did ask spouse ?(French Fry)? to remind me that I am a human being. She thought cigarettes were the most romantic thing of all time as she layed under wings for 1<sup>st</sup> time by herself while knew I'd return after cigs in FRANCE.

No Power 10:28pm. 11:05 She shut down my laptop power over notes.

114. Assessments of 3 girl group. They chicken fight a little bit butt all 3 are smilers. compatibility unknown, however sadness is interesting in vacancy. Butt adult trade-offs too. (I believe that the middle one does be mean to the older and younger one. I'm not sure if they'd miss each other. Normal is to leave each other in the future.)
115. I promised the group of 2 a husband for the tall one if she wants it ?(service of Malibu Match)? You can run assessment or which bathing suit.
116. Girl in flower dress could be too much of a leader for a princess but who knows. My job is to spread some currency. ?(in the area of Salinas)?

**(resident minus visitor per heat signals)**

Chipipe: 187 people sleep there with ~40 people on night shift.

Salinas: Same Number Street 1 and 2, 25% (75%) 50% 10% as go further back to street 6-> airport.

San Lorenzo: About same for Centro and San Lorenzo.

Zone 2: Explosion of statistics Muey & Santa Rosa

**\*\* People at KFC all days: More than 1600 a day. \*\***

-

The reason our power is off at 2 hours a zone is because we are saving our power on this Thursday for the 250k+ visitors usage on weekend

(We have a 900 foot antenna that we have chosen to ignore the environmental rules on. Thus to pay for said fines, we accept money from the state to throw events on our beach. Our solution has been to tear down the city of Salinas to comply. Then fight the legal system to tear down the tower while we're on the beach somewhere else. There are tons of ghosts here.)

-

I did connect with Spanish judge(s) that I message officially by BCC. We were jointly working and I did bow to the advanced translation of English. An accomplishment. He was they were slowly acclimated and unsure/confident of Day 1 now factor.

-

I worked my video and normal grind. Fixed my note spreadsheet 9x. Did some HTML. Made best I could a tutorial after dinner.

About 5:15pm, I went to the beach. Lisseth was dressed for church. She was lookn' good. Cuidado en la calle. Call a taxi if you don't want to bus (7 minutes).

-3 page

The beach was 2 cigarettes. I crashed on the towel but was forced to swim. The trio of girls were having fun together. The younger sister didn't have a suit on but they were all happy and laughing.

It was a conscious choice to say if an assessment was given besides adult trade-offs for 3 girls that don't school good that laughter would leave.

I saw about a 2 year old in a red dress who wouldn't walk in the wet sand but would require her pales with rocks by parents in water – that's impressive. 2 kids male very quiet with granny see if could give them apprenticeship → knowledge at our wonderful sporting events in the future with Lambo assessment.

Went home microwave 3 mins Pollo Asado leftovers. I did shave today. She asked about haircut but I was sweaty. I grinded for better process in programming and typed for 10PM welcome. Notes Shower Smoke Teeth Lounge with wife Re-read 2 days

My sister keeps poking me as do others. Is it a moral issue? Or do we wake to torture? Why are their people in Salinas driving moto clubs with noise? Are there people answering my phone in the city? Who signed that paperwork? To torture the most importants? Travelers? Expats?

Interracial spouses? Is it morality or wake up just to torture? With an underline of the word – Just.
