Woke up at 4:15am to observe bird. Gino popped in to request assistance with camera. Bird always points one direction was refuted – with a maybe the female points the other way. ???(I think it watches the nests and gossips)???

Lifted seaweed off by hand for conversation in person. Weird garble was solved. Satire for your morning in prose.

Left Night Shower by bus CPE. All clothes are aluminum stained with holes too. CHP bus had band dress like all. Saw/Questions about my pen pencil arm band uniform requirement. Saw nun checking off volunteer hours.

Owner of restaurant had bamboo screens very nice. 1st floor was mostly garage tienda doors. Dislike artwork on DMV as saved wall with no restoration. ???(They put artwork back up without repainting the photo)???. About 150ft x 100ft.

Did my street sign Grease Lightnings(/Leg Swings) -13. Finished walk but saw wife in recognizable attire. Waited for a hair display. Saw 2 quiets on back street maybe. Saw black girl braces on bike. Expected braces wife from IronMan to show up. Discussed with mini wife seen on eating BK with me for a long long long time. Eating 2 breads Pan de Sal with 1 hard boiled egg & queso criollo in underwear. Wife said no fun upon good morning AM bed chat. Too cold. She was bending over at the fridge.

5-22-2026 Friday Punch-List of Ed Sparks

118. These couple people & kids stood in front of me on an open beach 5/22/26 at 5:30-6:00pm. Run assessment on the 2 kids 1 girl with braces & boy ran up to me with toy truck and then kicked sand. I was like this kid's gonna be a genius. Very possible adult trade-off for the daughter but questionnaire seemed what they wanted.
119. The 3 girls reappeared so we are running the small one for eczema with pool water to USA chlorine regs TO SEE if we can beat her inability to change sheets & pillowcase. Tropics & 100% humidity hold without proper monies to stay clean.
120. E&O +T

120A. Written on 6/4/26. My marriages are starting to AI fall apart as the computer people have no moved them into my house and boredumbs/loss of faith have waned my numbers.

is often mostly found as an air sign. An AIR RAT would not know proper term but not a stewardess possibly floating trash or pollution
Space Trash would seem also in a way.

** I classified this later as Air Rat = Audio/Frequency. I did change BeachRat/BeachBum/Backpacker to TrashRat.. In a bad clarification way, Backpacker is a homeless person and not a backpacker world traveler. The computer refuses to go backwards and fix it. By all means see if the travel vacationers that you classify backpackers on vacation with a spending score VS your definition of homeless person/camper in Europe. You'll be surprised that Air Sign is correct. There is no electricity then you stare at the... stars. **

Thoughts about TIGER RAT. Gone 72hours plane to Bonaire hope to see 24hrs enforced.

** Species take a bite out of you if you so tell them what to do. That was poltergeist to Bonaire but none of your business. Things are fine/not fine out there for them. **

Reading 6 hours of notes from previous. Had own thoughts simultaneous in notebook. Attack Ed right away with 5 minute puking sessions. Bravo.

Open statements agreed to meet each other. I decided on connecting corridors to combine buildings/hotel rooms. Then settled on Free All with an invitation to all outside. They did contact military for 300 defined number no deviation to 25 people per branch. <balance of triangle> They began backpacker but questioned after word not translatable. Request definition in shower of RAT. Bravo. *calming peace on transportation.

Start work 9:15am. Had to type 5/17/26 and format too much crap. I had no emails. Didn't even bother with the phone. Around lunch I started actual work for 5 minutes. Ate spaghetti bow tie with

ground beef 2 plain bread margarine and garlic/parsley salt.
Pounded work. Couldn't stop note transfer comments. Eventually,
my 6 hours was up. The computer let me turn on for 1 second the
spreadsheet. I corrected 2 things brief and then crashed. I reopened
my tools. IT crashed again on one of the world's fastest computers.

I gave up and went to the beach. I saw that it was low tide and sat
closer...

to avoid people. This kid ran up to me and showed me a truck and
then spanned a hurricane of sand. The kid was out of parental
possibilities with only & other possible people responsible. This
kid is Ecuadorian.

I read 2 magazines on Olon and Salinas. One large newspaper size
1 normal size. Saw same ad in both. I do not like SMUG style.

I did see trio from yesterday of girls that are not good at keeping
their hands off each other in play violence. I did notice that acne
was on the small one. The last case of eczema was handled by pool
attendance and removal from their filth of routine. Kids can't
protect themselves from a mattress/pillow/100% humidity mold/no
pillow cases or sheets/no money for laundry. Ran assessment.

1 person stopped and waved hello. 1 guy I gave the magazines to
after reading 2x and trying 3x to hand to someone. He started
reading. I moved chair to bench area. Watched sunset.

Returned to eat leftovers before night. I made more salsa with
blender for tomorrow.

She wanted to go to SuperMaxiPad for discount on meat day. I
showered then taxi to store. Saw kids with security guard & family.
Power went off 3x while in the building. Had discussion with "the
Brady Bunch" about the Poltergeist/Military/Rat Tiger being

Vengeance. I did cover women as the Z. We did argue in Chinese N Vietnamese as to Cat Vs Tiger Vs Lion. Vengeance is Tiger eat Rats Lions eat Pigs. Butt Fuck It. Which one is it?

I did accept later that trash bums or trash pickers were the Rat with Frequency/Sound/Music VS no communication or jammers or blocking terrain/decorations are the Rat. I got there from a trash military is frequency interference. Space Trash is moonbeams sunbeams also Rat. Is Lycan Human Vampire Celestial? We had an argument.

Returned on bus. I freaked out. Sometimes I cannot sit on the bus due to crazy shit internally or a 12 year old I couldn't look at his face anymore. 7 min \$.70 bus ride I had 3 city workers watching my house.

I slept then Julia contacted me about paying my spouse E&O+T. After a reading of top of pile. She determined a femal cannot do this paper. She troubleshooted with Costa Mesa with O.R. statement they refused after our conversations. ODDLY IT DOESN'T MATTER WHAT THE PAPER SAYS IN...

-4 page

A PILE IS A ROADBLOCK FOR EVERYONE. BUTT, I SAID TO HER THIS IS SAME SAME E&O +T. And she filed it. And she filed a bunch more. Thank you wife and some interested computer people and costa mesa. <Extra credit, Gino said he helped> That was a good way around it though.

I fell asleep in bus clothes nude. Nobody wanted to deal with me. Woke up 45mins before bird for cigs. Hear bird now 4:36AM SAT. Was told to go to different beach today further than last beach. I was also explained with the double shift I have only 6hrs to my 30 which I am allowed 5 and work Monday.

My Eddie Sparks Business School for Kids Final Project is the End of Law Mega Corp & INTL legal with temple no enter M/F/Pr VS w/Home Depot no enter M/F/Pr

One of my wives... Julia noticed that staff was not on payroll & used trespassing instead of PD & Military. She noticed Eddie season was backwards troubleshooting to present & started going forwards in frustration. Then thanked me for the knowledge & fell asleep at 4:45AM +- 1 hr for Florida.

Turbo King 3:45AM. What is the purpose of it? That ended with the same subject of the notes. Fully explained.

** He did push shadow king instead of him but I don't him haw at 3:45AM **

2 concurrent statements as close of TODAY's NOTES. On the bus, I argued with TuCo that I wanted a replacement due to financial sameness on a 10 year average.

Its nice to know boats and driving around seen from my balcony
