5-23-2026 Saturday Notes of Ed Sparks

Woke up about 7AM. Did make coffee. Did prefer to type the final project of Facebook Due 5/15/26 for School for Kids that Don't School good. Ate 3 empanadas with queso for breakfast at desk.

Walked to end of Malecon returned 8:30am. Did 14 exercise Grease Lightnings on street sign. Nobody says Good AM often on a Saturday Mid Morning.

Worked on my jerbs. Worked on emails/formatting. Did not get paid only \$25 from Roy. Instructed not to work on Sunday. May lose jerb but doubt it.

Promised I would leave the city on Saturday. Wanted to go to restaurant circle. Paid for Manglaralto got off at San Pedro.

PPL on restaurant row didn't have almuerzo. Walked to Comedor America 3rd 4th house from painted San Pedro wall. Ate hands down the top seco de carne in Santa Elena. After 6 years experience with half lime I didn't us in soup pescado.

Wlkd back to far restaurant row. Under construction. Lady said I could use hammock and table. I asked to pay her.

Beach was beautiful perfect for Santa Elena luxury. Fishermen in front of us were loading nets into a red classic truck. The beach was a good 300 yards or more wide and miles long.

We could see Montanita in the haze of distance. Not much but more populated than Danielita. Fishing boats wooden loaded by red tractor on logs into parking spots. Miles of quiet with some roads closer than average busy.

Paradise can be achieved while being nice coupon-wise to the various unattended children smartly building sand towers & holes

in an exotic-abandon-ed beach. A few with a dog too.

We returned home about 5:15pm. There were testing my optics and I was tired of not wearing my sunglasses. I saw teen fans on the last bus. I hit the beach for 20 minutes with out my chair. I returned to..

** The problems were that the optics kept cartooning with the sunglasses. Then I halfed the sunglasses upside down on nose. That was near impossible. Even that bring your finger close to your nose trick to see two fingers was not fixed by brain of CPs. Also you may see a negotiation of Ivanka to Orange which for some reason DJT put a savings account with my paychecks in them labeled with stipulations.

They don't understand how I am now do they...? I told them a few times that I do wear sunglasses. Everywhere. **

my place for pollo frito. Conversations about 1.5 hours of work left on computer VS a day of talking to the DJT staff about proving they could see my optics without cartoon filter. Many officials had to agree I was not wearing a camera/had no phone/troubleshooting for putting my sunglasses upside down on nose/ sun on one side/mind conjoins photos of 2 eyes with obstruction causing regular double vision blurred by natural no mind.

Ivanka pissed about yoga retreat in Olon as not my style. Orange was negotiated. Tired. Talked to Julia. Rented top floor. Took forever with military escort. Took shower. Ate.

Opened both notebooks. 2 blank pages left. Sleep with conversations. Not touching wall was mentioned.

Mexico Miss Universe playing games. Handled. Very loud in Chipipe/Salinas. Hid in room 325k people at night.

** I've slept on a venue for years. For some reason the club in front of me is of interest to my smoking habits. I could care but I don't

care what people do on their day off. **

Written Large.

BEETS – translation for wife in English during cooking.

End.

** They did ask me if I could see the G of USAF in the hammock. Ivanka wanted to return and negotiations were Switzerland but Donald kept repeating almost more north. You think I'm joking but that was the conversation, I did approve the change. I was cut in half a few times. Ivanka would say that she's mean to me/him **
