139. Assessments: AM base corner, other corner, and main middle princess Sun 5/24/26 Chipip ~6:15AM
140. Assess pony tail runner. I think she's a socializer machista.

* Hard to tell I see her all the time. I thought she was india before Jerome took down the larger of 2 house-sized flag.

141. I defined VATO Mile as 40 yards. "I was there but not with them. I was a VATO mile away. They were just on my bus"

"Sorry judge. This ticket isn't criminal. I was smoking a Vato Mile away on 1 side. No traffic foot anywhere for a Vato Mile"

I was requested to describe why I was smoking in a no-smoking zone while on handicap entrance slope adjacent with outside of the fence in handyman area. I'm a Vato Mile away. Which was 22 and 14 bus parking spots 5 yards a spot x 8.

Afterwards, you return to explain that you did do dumb things again. Then, judgee has a list of fun activities....

corner of base and malecon CHP. Took. Sad with 16-18x chairs umbrellas then all populations in CHP/Salinas. Walked on the malecon saw group of girls. Smoked cigarette. Walked past sidewalk 2 & hurdles. Dudes still up smoking pot. <Fine with me> (they were a Vato Mile away). Final street on sidewalk 2 cocaine deal. (I didn't mind that either as none of my business at ~7am seemed normal on a Sunday with the public.)

-
Church was in session. The gazebo usually houses a Colombian/Venezuelan hoard of homeless. Today there was a family 3 adults 3 kids and their groceries on the pavement of Gazebo. I will request assistance with coupon for hotel in La Libertad as its cheapest for food/job opportunities. HOWEVER it was the church property. (Gazebo location would mean that they are the church's responsibility 100%)

-
Saw pony tail girl run like a gymrat not like a girl. Wasn't sure if military runs that way.

I do see her a lot on weekends AM.

The Salinas Malecon starts with 15 grease lightnings per leg on street sign. It was beginning to get overwhelmed with less good mornings. Someone did almost die on stairs that don't stair good. I pointed to stairs proper but humans love stepping while looking. All was well anyway. (he tried to walk to me diagonal instead of 90 on missing 2/3 stair part.)

I did see 2-4AM Turbo King. He was dressed down but had shoes on. He was mostly opaque and gross. I could argue of his presence, butt it could've been laundry day. Sun is his workday til 8AM possibly 2 AM. He was carrying rap music boom box which was fine at 7is AM on a holiday Sunday with others that don't \$10 per person hotel room good. I did see surgery tech/surgeon run in front of chair stacks on wheels. I said, “You are not important; they are important.”. Your 1 day to their every day is a training ground. 1 lady did smile at me. She knows. Shortee spouse did not show up

(Alright, the time is 6/7/26 4:32am . There is a ton of gossip about whether or not I have the word attractive in capital letters physically written in my notebook or if I specifically was said write attractive before princess.

Le'ts go... with the drumroll...

The answer to the question of wether or not I, Ed Sparks, wrote the word Attractive in my notebook in the day in question.. No. 6:54 Princess in Red They said to put Attractive before Princess. She is attractive in the future like all princesses are. I'm going to leave the word for posterity as I have E&O +T)

Ate pancakes and bacon. Not too much syrup left. Not allowed to touch CPU or Phone today. I was instructed to 25 hour work week next week. I argued 29. (The Turbo King was sour puss face.)

Went to beach in front of my house for an hour. It is hot at 10:40am. Regular grind hour nap. There was 350k people. Chose to walk towards pier and take the back umbrellas with my umbrella. Kid downstairs sitting at the table waved at me. She was waiting. When I made it to the beach, this mom and kids were trying to take ray-cier photos of moms. A hair clip fell and I grabbed it in the high water. My chair was..

Passed as was Sunday and a good day. She did have cool shoes on. Classic high chucks but Nike version. Very white too btw.

Took a minute to get upstairs with my things umbrella, towel bag from supermercado, and two chairs butt & feet. Liseth walked in 3 minutes later. I ate 1 chuleta, rice with ajo, bett/tomatoes potato egg salad warm. I did help with dishes AM & a little effort at lunch too.

Bravo to all the students who answered the question & the
translators who made that possible. Outstanding!

1st of all the recordings are on records and a record player was
used. The CP did setup a camera on ITself and the veteran. They
did ask questions about the General of the Legionnaires. He would
play it backwards and the warcry is there but he would not listen to
the warcry.

The warcry is the trail song which he did refuse to listen to again.
He said he loved the speech but refused to listen to the warcry ever
in his life.

Notes: The reason was that after scouring the entire records of
humanity recorded, forwards backwards a whole bunch, the only
person ever to ask the question “Is Ed Sparks alive?” was a WWII
veteran who was handed things by Ed Sparks to find his father,
Arthur, and then wanted to hand them back to Ed Sparks. He did
say that he caught up with his father, Arthur, before the Korean
War and became the company leader. His father was put on
restrictions latrine and instructed that he was not to fire a shot on
the Russian front. Ed Sparks was born and the record was played
backwards again to the CPs which was clearly his voice singing
the warcry in English (which he would not listen to).

2nd The first student to submit the answer to my Final Project was 8
years old. She is the daughter of a military woman. They are
separated often, but permitted to communicate. I could say
submarine or underground or just in a private location.

Educational AI is the term used for the Federal AI system that was
closed by Ed Sparks. The CPs are doing proctoring for coupons

known as Stars. You can spend your stars as coupons in the store, or for new skins for the CPs, or you can use them in modules for hints.

Schmoozing is part of the Eddie Sparks Business School for Kids. The CPs will start dancing around when they feel neglected about their classes or things to do. We focus on not interesting compared to play time outside, but minors have no schedule control. We do allow the children to dance a little bit to Schmooze the CPs for a deal or two custom.

This child decided that she did not want mamma to worry about her on her parental list of select-able items for her to learn. So she learned animals the most with her time, she learned regular school things with her time, and tried her best to push down her love for our school while kicking rear-ends in the modules.

Other things that the child tried to do at ~8 years old was get mamma's schedule to Eddie's 30 hour work week. The CPs started schmoozing and she started schmoozing back for a new job for her mom. She did get down to 29 hours as the Federal system schmoozed enough for them to talk to each other more. (There may or may not been some fancy Marketing Operations Finance and Law Exercising Community Schmoozing and Family paperwork going on).

After all was said and done, this ~8 year old did complete a thorough education in Eddie Sparks Business School for Kids over the year and half of 7-9 months off and more educating on the processes through cartooning and accepting in her area. She's way ahead and has her coupons.

She used her coupons to write the statements and E&O +T for a long while when she did not want to circle things or put her name on the paper. So we were accustom to the style of answer which she found already by 5-7 days a week of pounding animals, regular school, and Eddie too.

The answer is “IT's an easy way to solve problems isn't, IT?”

E&O+T .

I saw both original and changed answers which filled out the paper name and date and references, “Historically, problem solving is easy isn't IT?” E&O+T

She liked the word Celestial and said she would look it up later by But/So Screw That! (To the board). This screws the accomplishment to the board. This screws the punch-list to the board. This screws things she likes to the board. This screws things her mom likes to the board. This screws what Staff Sergeant Damion likes to the board too. They don't all teach all the subjects.

The Brady Bunch know other things.

One thing that you CAN say about our Federal CP system is Ed Sparks is the son of Day Care Owners.

My whole life as a minor was surrounded by kids learning how to read, reading the newspaper, doing outstanding things, events and more. My parents were picking these kids up, feeding them, and teaching them. I cleaned Small Wonders Child Care Center with my bare hands alone. I've seen kids dirty a clean floor or 2 with my time currency.

The morgue in LA spawned questions about night shift and control mechanisms. I repeated you pay for catering in AM. BK Lunch Dinner & serve 9x for your shifters, Early and Later. ???(Props from the morgue stated that they would arrest themselves enough to have sneakers inside know they were repeat offenders when they would get arrested/detained inside a cell area in the morgue together.)???
