6-9-2026 Sunday Notes of Ed Sparks (Tues)

Woke up 5:45am no shower. Put on my pencil pen scrunchy walked down the street. BK 2 pieces of Hut Pizza with nugs. Leftovering is about personal choices so I picante'd and ate nacho chips with my salsa bowl handy. I do admit that vegg vegg is a farting affairs with salsa leftovererings in the air.

Went to work. Typed my notes. Ate cerdo frito rice lentils for lunch. Lisseth does eat lunch with me. We cleaned up and I went back to work. Stopped at 2 to go to Loberia. Bus red did not run. Went back to do other things. Facebook post on blank program WZYWIG gmail. They easily use all positions on a Gmail form. Gmail is a form and not a mail device.

<Gmail is a php spinner that has the ability to send your email to someone else first and print the content. The way to stop this is possibly from pressing the code button. My email has E&O via a database.>

Lisseth left for church. I didn't leave for same reason I did eat leftovers. Then clean and shower Lisseth came home. I slept next to her until about 10pm. Her room has bugs that bite me. My room and the entire apartment + balcony has no bugs.

-

I slept in various rooms until about 5:15pm.

183. End 1 Notebook.

I thought I put Deja in there somewhere. At least I'll think about the fact that I said something about her in case she needed a friend on her farm.
